syllabus is wast

Include field and daily life application in syllabus

Syllabus Must be application oriented related to current issue

need to take feedback from life science research lab

e learning commerce add in to the topic syllabus

Very Good

Bio Statistics Should be included in the Syllabus

Include Research Oriented Projects in the curriculum

PRACTICAL ORIENTED CASE STUDY REQUIRE...!

field visit must be in practical

Language Lab is necessary

Practical Syllabus is very vast

Removed Toposheet interpretation from fybsc practical syllabus

update the syllabus with new technology

industry related ed topic should coverd

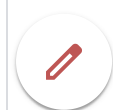

To teach practical oriented

Syllabus so wast

syllabus mast short & Importants

Include Subject to improve the english language of the student.

project field visit needed...!

Students strength is very high therefore it hardly possible that teacher individually solve doubts and can evaluate understanding level of student.

Reduce the size of syllabus

Add topic in chemistry related drug discovery and synthesis. Also add syllabus related to green chemistry

Research topic add for msc compulsory

Add the topic based on green Chemistry , flow chemistry, nano technology

Syllabus should be based on new technology

Add more theory part in topic eigenvalue and eigenvector

Add the curriculum helps to get Job

Visual basic subject is out dated please remove this subject from syllabus

Syllabus should be updated regularly. As far as science stream is concerned, more skill based practicals must be included in curriculum.

Application of laplace transform

Add Application of Calculus in Space Technology

Reference Books not available

B

Add computer oriented practical

No any suggestions

For MSc class in syllabus added the research work and also research related practicals

Practical papers change and give applied knowage to students

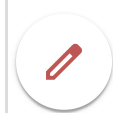

Reduce the syllabus content and Prepare Systematic format.

Fy.B.Sc practical is too vast the practical should be reduced

Practicals should include some computational approaches in problem solving in electronics

The syllabus should relate the theory with current research all over the world. Advancement in UG syllabus is necessary as far as the subjects of PG are concerned.

Type study of an animal should include the dissection so as to study the internal structures. It is essential for interest in the subject

As the processes may vary, hence the example of certain animals should clearly mentioned while studying the embryological process.

Need to add some application oriented topics in O.D.E. and P.D.E.

-

Students are really good. If they will get good piece of project setup, I am sure that it will decrease his/her tension.

Local and Current industry requirements needs to taken in to consideration.

Practicals should be skill oriented and please avoid to write each and everything in practicals.

No.

More techniques should be added in molecular biology to study

Please let me pass
